FIGHTING THE FEVER.

New Orleans Health Authorities Are
Feeling Confident

OF ROOTING IT OUT.

Thorough System of House Inspection
Has Been Inaugurated and
Every Dwelling Is to Be
Rigidly Examined.

New Orleans, July 28.—Health authorities who are handling the yellow fever situation here have so thoroughly perfected their organization that they feel confident every case of fever, even though not thoroughly developed, will be promptly reported and go upon the official records. So thorough has been the inspection of the city that it is believed every existing case has been rooted out and is now included in the 206 cases which have been announced. Many of these are on the road to recovery, and it is expected that with the perfect scientific treatment that has been arranged for there will be a reduction in the mortality rate, which in the early stages of the disease had been admittedly high.

The most annoying feature of the situation now is the disposition of practically every town in this state as in adjoining states to tighten the quarantine against the city. That is due to the feeling beyond the city that 200 cases mean a serious situation and the fact that the escape of Italians from the infected French market center resulted in the appearance of cases of fever in various points. One case has been reported at Tampa, an Italian refugee from New Orleans, and there are reports of cases in Lafourche, Ascension, St. Mary's and Plaquemine parishes. Shotgun guards are now being put on public roads of parishes outside of New Orleans to turn back every Italian who makes his appearance, and the bars have been put up all over the state against that nationality in particular. Two Italians who managed to board the Mississippi Valley train Thursday were locked in a car which was sidetracked at Baton Rouge Thursday night and sent back to New Orleans Friday. In this city and elsewhere Italians are suffering through the marked reduction in the fruit business, in which they are largely engaged. There is a popular misapprehension that fruit from the tropics is capable of transmitting infection and some towns are already including fruit among their quarantined articles. In New Orleans many people are refusing to patronize Italian peddlers and fruit stands.

Rev. Dr. Beverly Warner, who recently returned here from Philadelphia, has opened offices in one of the prominent office buildings. He has been chosen superintendent of wards in the great campaign of cleaning and sanitizing the city. All wards make daily reports to him.

Screening and oiling cisterns is popularized in a novel way. Thousands of lapel buttons have been ordered to be given those who have followed this regulation of the board of health. The buttons are plain white with a life sized stegomyia fasciata pictured in the center and surrounded with the words: "My Cisterns Are All Right. How Are Yours?" The system of inspection, which has gone into effect, contemplates a visit to every house in the city so that no case of sickness may escape detection even in its incipient stage. The city has been divided into a large number of districts. Each inspector is required to visit every premises of his district and every room if possible. Special endeavor must be made to discover every person sick with fever of any sort. Each inspector is provided with a large oil can from which he is directed to pour oil on all exposed water surfaces, tubs, cisterns and pools. Every night there is to be a full report by each inspector of all premises and rooms visited.

Governor Blanchard returned to the state capital from the Alexandria encampment and has placed himself in hourly communication with the state board of health. He is unable to come here because Baton Rouge and other towns have made their quarantines so rigid that if he did he would not be able to get away again and the state's business would constantly suffer. The governor said in an interview he did not believe there was the slightest justification for the panicky feeling in the state. He is in perfect touch with the local situation and thinks that if there is thorough co-operation of the people with the medical authorities there will be no danger of a serious spread of the fever in Louisiana even if additional isolated cases occur outside of New Orleans from the flight of the Italian population.

The reported case at Bowie, on the Southern Pacific railroad in Lafourche parish, has been confirmed. The case was that of an Italian who fled from New Orleans. Upon his death the authorities promptly burned the building which he had occupied.

Will Be Rigid.

Chattanooga, Tenn., July 28.—The quarantine instituted by Acting Mayor Doughty is against New Orleans and other infected districts in the state of Louisiana. It was put in full force Friday and will be rigid.

TWELVE CENTS FAVORED.

Sense of Association Is That This Must Be Minimum Price.

College Station, Tex., July 28.—The most important action of the Texas division of the Southern Cotton Growers' association at its final meeting was the adoption of a resolution expressing it as the sense of the association that 12 cents should be the minimum price for the new crop of cotton and that farmers should not sell at a lower figure. With this a committee to gather information concerning the crop, demand, requirements, prices, etc., to act in conjunction with the general association was created.

Colonel John D. Rogers of Galveston read a paper on "Lessons in Exporting Cotton," which was heard with evidences of great interest.

Captain James Garrity of Corsicana read a paper on the subject, "How to Fix a Minimum Price for Cotton."

GERMAN BAPTISTS.

Meeting in Annual Session and Much Business Transacted.

Dallas, July 28.—At the meeting of the German Baptists of Texas held Thursday much important business was transacted. Several addresses were also made. Officers for the ensuing year were chosen as follows: T. A. Shaible, president; A. Becker, vice president; Fred Jerger, recording secretary; R. Fehlberg, corresponding secretary.

Various committees to carry out different branches of the work were named and a committee of five appointed to revise the constitution of the assembly.

Correspondence Courtship.

Paris, Tex., July 28.—John C. Greer, a young farmer of Mercer's Gap, Comanche county, and Miss Lilly Snyder, formerly of Indiana, were married at the pastor's study of the Cumberland Presbyterian church in this city. The bride and groom had never seen each other until Mr. Greer reached Paris Tuesday, their courtship having been carried on through correspondence, which was initiated by a mutual friend.

WOMAN HORSEWHIPS MAN.

With a Rawhide Mrs. Devens Severely Flogs J. W. Lang.

Lawton, July 28.—John W. Lang, an oil driller, was horsewhipped by Mrs. William Devens Thursday afternoon on D avenue. Both parties are above middle age. It is stated that the trouble leading up to the affair is an old grudge of many years' standing. Mrs. Devens, upon seeing Lang, went immediately and secured a rawhide whip, and then returning to where Lang was, she began to use it freely, cutting him probably twenty-five times before she was arrested. Lang and Mrs. and Mr. Devens were arrested by the police, but gave bond.

MRS. NORTON SUICIDES.

Charged With Being Implicated in Mrs. Jones' Disappearance.

Shawnee, Okla., July 28.—Mrs. H. H. Norton, who has been living at 1126 East Tenth street, in this city, for the past two weeks, killed herself by swallowing cocaine poison at the city jail. Mrs. Norton had been arrested by Officer Sam Bartell of Oklahoma City and Police Officer Jim Burnett of the local force on the charge of being implicated in the disappearance of Mrs. Katie Jones, near Weatherford, Okla., July 9.

News Agent Fined.

Chandler, Okla., July 28.—The first person to be fined under the new anti-cigarette law was E. W. Cameron, a news agent here. Cigarettes are not sold at all in Chandler and the news agent, it was alleged, made good money by selling them from the train. Cameron was fined \$15.

If They Have Clean Bill.

Mobile, Ala., July 28.—Fruit steamers that have been out five days and show a clean bill of health can unload at the local wharves under the usual restrictions. Under no circumstances will vessels from an affected port be permitted to come nearer than the lower bay, where the fruit will be lightered under strict quarantine regulations. Two steamers arrived from Bluefields, a non-infected port. These vessels have been going to New Orleans.

Case in Florida.

Tampa, July 28.—State Health Officer Porter reports that Victor Vitello, an Italian, who arrived here last Saturday from New Orleans, is suffering from a mild attack of yellow fever. The patient has been isolated and every effort is being made to prevent the spread of the disease.

Expert to Investigate.

Chattanooga, Tenn., July 28.—The city and county board of health at a joint meeting decided to send an expert to New Orleans to investigate the situation. The Manufacturers' association has called a meeting to demand the establishment of a rigid quarantine. Chattanooga had a fearful epidemic of yellow fever in 1878.

Remanded to Jail.

Ardmore, July 28.—George Bridgman, arrested by Federal officers on a charge of killing John Clark near Lebanon Monday, was given an examining trial before Commissioner Gullett, who remanded Bridgman to jail to await the action of the grand jury. Both were prominent farmers and are well known in the Chickasaw nation.

INSURANCE

This is quite a feature of my business. I represent two strong and liberal companies, whose contracts are free from the usual numerous restrictions that some other companies have, which really have the effect of insuring the company instead of the insured.

No trouble to explain the policies and quote rates. ACCIDENT TICKETS—These are adapted to persons who do not desire yearly insurance, but who wish protection on short trips, etc. I issue them without written application, taking effect immediately

REMEDY FOR HAY FEVER.

After Trying Other Treatments, Hyomei Was Used with Perfect Success.

Before the discovery of Hyomei the only advice a physician could give his hay fever patients, was to go away from home, but now anyone who is subject to this disease can, if Hyomei is used, stay at home without fear of the annual attack of sneezing, watery eyes, and other discomforts.

J. F. Forbes, a well known Western railroad man, whose home is at McCook, Nebraska, writes: "I have never had any relief from any remedy for hay fever, even temporarily, until I discovered the merits of Hyomei. I always recommend it when occasion requires."

There is no offensive or dangerous stomach dosing when Hyomei is used. This reliable remedy for the cure of all diseases of the respiratory organs is breathed through a neat pocket inhaler that comes with every outfit, so that the air taken into the throat and lungs is like that of the White Mountains or other health resorts, where hay fever is unknown.

The fact that E. J. Jenkins agrees to refund the money to any hay fever sufferer who uses Hyomei without success, should inspire confidence in its power to effect a cure. A complete outfit costs only \$1.00 and extra bottles but 50 cents.

HOUSTON MAY BE SELECTED

As President of the State University. Several Others are Named.

Austin, July 27.—Speculation is current in this city regarding the probable successor of the late Wm. L. Prather as president of the University of Texas. Judging from local comment Dr. D. F. Houston, president of the Agricultural and Mechanical College at Bryan and former dean of the faculty of the university, is the popular choice for that position.—Houston Chronicle.

The board of university regents will meet in Austin today and will appoint Dean Mezes as the temporary head of the institution. An Austin special to the Galveston News says with reference to the vacancy:

Already several names have been mentioned, among them Dr. Sidney Edward Mezes, dean of the main university; Dr. D. F. Houston, former dean of the main university, but now president of the Texas Agricultural and Mechanical College; Judge B. E. Tarlton of the university law faculty; Clarence H. Miller, dean of the university law department; Judge Yancey Lewis, Dallas, Mr. T. W. Gregory, a regent of the university and a resident of Austin, and C. N. Ousley, editor of the Fort Worth Record. The salary is \$5,000 a year, while that of president of the Agricultural and Mechanical College is \$4,000. Friends of the Agricultural and Mechanical College have expressed themselves as not believing that Dr. Houston would accept the presidency of the university at this time, though he could do so a year hence. If such was the feeling, the regents, in the event they agreed on Dr. Houston, could wait a year, Dean Mezes acting during the coming scholastic session.

The regents are T. S. Henderson, Cameron; George W. Brackenridge, San Antonio; R. Waverley Smith, Galveston; J. N. Browning, Amarillo; Beauregard Bryan, El Paso; T. W. Gregory, Austin; Ben S. Cain, Tyler, and H. M. Chapman, Fort Worth.

INSURANCE OF ALL KINDS.

Fire, Life, Accident, Health, and Live Stock. Insurance in the best companies on earth, and at the lowest rates. We make our own rates. 202 T. R. Batte & Co.

SATURDAY, JULY 28.

The man behind the gun etc., etc., has given place in popular favor to the man on the lid.

Everybody get a skeeter net.—Gonzales Inquirer.

Better get a can of kerosene and stop the breed.

With yellow fever at New Orleans and Tampa this early, Texas towns had better lose no time in cleaning up and waging a relentless war on mosquitos.

To think of Bryan these days is to think of handsome churches and fine schools. Her enterprises of this kind have made the town famous all over the state. Let the good work proceed.

The effort to move the Farmers' Congress away from the Agricultural and Mechanical College signally failed as it deserved to do. Such a divorcement would be fatal to the congress and in a measure injurious to the College. The College is the logical home of the congress and its chief nourishing factor. It will never be moved so long as wisdom rules its councils.

The Eagle is glad to note that Texas towns are working up on the subject of prosecuting persons guilty of cruelty to animals. The Waco special says: Polk Bennett, a negro man, was fined \$75 on a charge of mistreating a horse which he had been driving. Testimony was that he left the horse to die, after it became weak to work, not even giving it feed or water, and allowing it to remain out in the hot sun, too weak to raise its head. He did not even kill the horse to put it out of its misery or report it to the police and ask them to kill it. The Humane Society has been quite active for some time.

 This is important, as statistics inform us that
 while fire insurance is a good thing, life insur-
 ance is more important as out of 1300 fire
 risks one burns, where every man who insures
 his life dies.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it. Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weak, and become diseased.

Kodol Dyspepsia Cure
 enables the stomach and digestive organs to digest and assimilate all of the whole-
 some food that may be eaten. It nourishes
 the body, and rebuilds the weak organs,
 restoring health and strength. Kodol cures
 indigestion, constipation, dyspepsia, sour
 risings, belching, heartburn and all stomach
 disorders.

BRUTE AT LARGE.
**Attempts to Assault a Lady and At-
 tacks Aged Couple.**
 Clarksville, Tex., July 28.—An un-
 known negro entered the residence of
 G. O. Poole, a mile and a half west of
 Avery, Red River county, caught Mrs.
 Poole and attempted to throw her on a
 bed. Her screams brought her husband
 and the scoundrel hurriedly left. A
 posse started in pursuit. He is a
 low, heavy set negro and wears No. 8
 shoes.
 Some hours afterward a negro, whose
 description tallies exactly with the
 above description, passed through the
 Hobson community, on the edge of
 Bowie county, and telled with a club an
 aged man and his wife, seriously in-
 juring them.

TAKEN TO WACO.
**Sank Majors Left Travis County Jail
 in Charge of Officers.**
 Austin, July 28.—Sank Majors, the
 negro charged with criminally assault-
 ing Mrs. Ben Robert near Golinda, Mc-
 Lennan county, July 11, were taken
 from Travis county jail by Sheriff Til-
 ley and Deputy Sheriff Ross to Waco.
 Captain E. E. Walker, chief clerk of
 state health department, has returned
 from Galveston, to which place the de-
 partment was temporarily transferred.
 He said everything was running
 smoothly and no fear entertained by
 people of Galveston for spread of yel-
 low fever to Texas. Dr. Tabor will
 use every means at his command to
 keep the fever out.

Gobbled Two.
 Beaumont, Tex., July 28.—City
 Health Officer Gibson joined by the
 county health officer and aided by the
 sheriff's department, took into custody
 two men who left New Orleans Tues-
 day night and arrived here via the
 Memphis and Kansas City Southern
 railroad. One man resides here and
 the other is his brother-in-law. They
 eluded quarantine at Ruliffe, on the
 state line. Although in excellent
 health both were sent to the pest
 house, several miles out.

Seeking New Homes.
 Paris, Tex., July 28.—A party of
 about twenty-five farmers from Lamar
 and adjacent counties left here for the
 San Angelo country to look at the land
 and perhaps to locate there. The con-
 tinued rains here have turned their
 eyes to the west, and though they all
 bought round-trip tickets several have
 already practically decided to locate
 there permanently. The party included
 some ladies.

Mrs. Kinney Acquitted.
 Henderson, Tex., July 28.—Mrs. Kin-
 ney, charged with killing her father-in-
 law near Glenfarn last summer, was
 tried and acquitted.

TEXAS CATTLE TICK.
**Party Claims to Have Devised a Plan
 to Exterminate the Pest.**
 Knoxville, Tenn., July 28.—A director
 of the government agricultural experi-
 ment station at this city has devised
 what is said to be an entirely practi-
 cable method of ridding farms of the
 Texas fever cattle tick. The method
 is exceedingly simple and inexpensive,
 and it is said can be practiced upon
 practically any farm in the south. The
 Texas fever having been the bane of
 the cattle industry in the south, the
 discovery is regarded as being invalu-
 able to farmers and cattle raisers.
 He has been enabled to work out this
 method by a careful study of the hab-
 its, life and history of the tick, which
 conveys the disease from one animal to
 another. Details of the method are
 given in official bulletins on "Texas
 Cattle Fever Ticks," just issued by ex-
 periment stations in this city and
 Baton Rouge, La.

Expects Two Branches.
 South McAlester, July 28.—South
 McAlester expects to secure two
 branches of the Santa Fe railroad in
 the near future, one from Tulsa, run-
 ning to Honey Grove, Tex., via Musko-
 gee, and the other a branch line from
 near Daugherty, running to South
 McAlester through Lehigh and Coalgate.
 Construction work will commence on
 the Honey Grove branch early in Oc-
 tober.

Sixty Rounded Up.
 Muskogee, July 28.—The Indian po-
 lice rounded up a bunch of sixty head
 of cattle at Robbers' Roost, in the
 Chickasaw nation, and are driving
 them towards the Red river and will
 put them across the Texas line because
 the owners refuse to pay the tax of 20
 cents per head.

Same Strict Inspection.
 New York, July 28.—Southern Pacific
 company's steamer El Cid, which ar-
 rived Friday from Galveston, is de-
 tained at quarantine for a thorough in-
 spection of her crew. Health Officer
 Doty having decided to put into opera-
 tion the same strict inspection given to
 vessels from New Orleans and Colon.
 All vessels arriving hereafter from gulf
 ports will be subjected to the same
 regulations.

TWENTY-SIX CASES.
**That Number of Additional Yellow
 Fever Patients.**
TWO MORE ARE DEAD
**Italians Seem to Be More Liabile
 to Be Stricken With the Mal-
 ady Than the People of
 Any Other Race.**

New Orleans, July 28.—Number of
 new cases of yellow fever Thursday
 was twenty-six; deaths, two; deaths
 up to midnight Thursday night, forty-
 four; cases, 206; total foot, twenty-
 seven. The apparent increase in new
 cases is due to discovery and transfer
 to emergency hospital of eleven cases
 which had not been previously report-
 ed. That institution is in full blast,
 and the screened ambulance which has
 been put into service is busy hauling
 the unfortunates to the institution.

The members of the Italian societies
 committee who have been doing mis-
 sionary work among their people are
 responsible for the discovery of sev-
 eral of these cases.

The rule of infection among the
 Italian element continues. There are
 few cases among other nationalities
 and only two negroes have been found
 with the illness. Yellow fever does not,
 as a rule, attack negroes, this history
 of all epidemics being that they have
 as a rule been immune. One of the ne-
 groes reported is a quadroon. Both of
 these men worked in saloons and res-
 taurants in the Italian quarter.

The increase in the number of foot,
 eight new spots being discovered, is
 also in line with the rule that has pre-
 vailed heretofore. In fact there has
 not been a single exception. Every new
 focus is traceable directly to the origi-
 nal source of infection. Thursday a
 case was discovered in the residence of
 a well known citizen, a maid servant
 being taken down with the disease dur-
 ing the afternoon. An investigation
 developed the fact that her mother
 lived in the Italian quarter, and that
 she had been in the habit of visiting
 her on Sundays. She had been there
 just seventeen days ago and had been
 there again last Sunday. Following
 up the mosquito theory the girl was
 bitten by a mosquito in the infected
 house last Sunday and the regular pe-
 riod for the incubation of the germ,
 four and a half to five days, was up
 to Thursday afternoon. She was im-
 mediately transferred to the emergen-
 cy hospital and every precaution taken
 in the residence.

The work of sanitation and the cam-
 paign of education has been completely
 organized and 500 men are actively at
 work. Another branch of the work has
 been organized for ward work in the
 education campaign, and Rev. Dr. Be-
 verly Warner has consented to be super-
 intendent of it. The people have fallen
 in line with a remarkable spirit of co-
 operation.

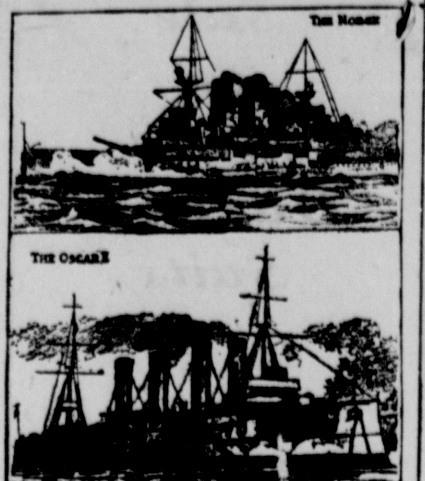

The quarantine situation has been
 further complicated by the telegram to
 President Souther from Dr. Mohr, acting
 health officer of Alabama, that he
 would require a seven-day detention in
 camp before any travelers would be ad-
 mitted into Alabama. Texas and Mis-
 sissippi have agreed to a five days' de-
 tention. The detention camps are be-
 ing rapidly put into shape.

Italians here are prone to avoid phy-
 sicians and the fever got a hold in the
 district before it became known to the
 authorities. No precautions were taken
 to destroy the mosquito and the
 scourge spread with such rapidity that
 out of the cheap and crowded lodging
 houses the Italians who could get away
 fled in mortal terror, some going to
 friends in other section of the city,
 some by rail to surrounding towns and
 some by luggers into settlements along
 the coast. The result is the appearance
 of cases of fever in various parts of
 the city, but principally below Canal street
 in neighborhoods of the poorer classes.
 Six hundred corner groceries and sal-
 oons in New Orleans are owned by
 Italians and many of these readily gave
 shelter to their fear-stricken comrades.
 Almost every instance of a new focus
 outside of the French Market district
 is that of an Italian who escaped there-
 from or of some one of a different na-
 tionality whose business is in that sec-
 tion. There have been ten foot above
 Canal street, traceable to the original,
 and one in Algiers. The Algiers case
 was an American boy, proving fatal.
 whose employment was in the district.
 No subsequent cases appeared in Al-
 giers. So far as the health authorities
 were able to discover no case has thus
 far developed from outside of any of
 the outlying infection, and with a very
 few exceptions the cases and deaths
 have been among the Italians. The ab-
 sence of a spread from the outside foci,
 notably those above Canal street and
 Algiers, is considered to be due entirely
 to the fact that the patients have been
 perfectly screened and scientifically
 treated and premises thoroughly disin-
 fected after death or recovery.

THEORY REPUDIATED.
**Adherents Denounced at Mass Meeting
 and Health Board Resigned.**
 New Orleans, July 28.—Because a
 mass meeting held at Baton Rouge re-
 pudiated the theory of the physicians
 that the stegomyia is the only means
 of transmitting yellow fever and openly
 denounced all adherents of the theory,
 the medical members of the Baton
 Rouge board of health tendered their
 resignations. The other physicians at
 the capital have endorsed the action of
 those who resigned and will refuse to
 serve on the board.

Considered Unreliable.
 New Orleans, July 28.—A telegram
 from Bay St. Louis, Miss., says that the
 first intelligence reaching there of the
 existence of yellow fever at Back Bay,
 where a schooner from New Orleans is
 said to have landed a number of Ital-
 ians from New Orleans, was through
 New Orleans papers. The report
 considered unreliable, but official

 cent interview with the Russian em-
 peror sought to obtain consent of the
 latter for the prince of the house of
 Hohenzollern to ascend the throne of
 Norway.

Report Approved.
 Stockholm, July 28.—Both houses of
 the Swedish parliament approved the
 report of the special committee ap-
 pointed by parliament to deal with the
 crisis between Norway and Sweden.
 In the first chamber the report was
 adopted without debate.

ENTERTAINED AT TOKIO.

**Secretary Taft and Miss Roosevelt Ten-
 dered Japanese Dinner.**

Tokio, July 28.—The bankers and
 merchants of Tokio entertained Sec-
 retary Taft and Miss Roosevelt at the
 Maple club Thursday night at a Japa-
 nese dinner, during which there was a
 Geisha dance. The club house was
 handsomely decorated and illuminated
 and American and Japanese flags
 crossed were displayed throughout the
 building. Shiba park, surrounding the
 club house, was illuminated, and the
 driveways were thronged with crowds,
 who cheered Miss Roosevelt and Sec-
 retary Taft as they arrived and depart-
 ed from the club. The streets from
 the center of the capital were illumi-
 nated and there was a brilliant dis-
 play of fireworks in honor of the
 Americans. The popular demonstra-
 tions and officials and private courtesies
 shown the visitors have been the
 most remarkable ever shown foreigners.

GUESTS OF PRESIDENT.

**Komura and Takahira Took Lunch
 With the President.**

Oyster Bay, July 28.—President
 Roosevelt entertained at luncheon
 Thursday Baron Komura, minister of
 foreign affairs, and Kogoro Takahira,
 minister to the United States, the Japa-
 nese envoys to the Washington peace
 conference. Subsequently he had a
 long interview with them at which all
 phases of the approaching negotiations
 were considered. Neither the president
 nor his Japanese guests cared to dis-
 cuss for publication the nature of their
 conference, except in the most general
 terms.

Suppressed For Two Months.
 St. Petersburg, July 28.—The No-
 vosti, the leading Jewish Liberal organ
 was suppressed for two months by the
 bureau of press administration.

TERRIFIC COLLISION.

**Twenty-Three Persons Were Killed
 and Great Number Injured.**

Liverpool, July 28.—An electric ex-
 press train on the Lancashire and
 Yorkshire railroad bound from Liver-
 pool to Southport collided with an em-
 pty stationary train at Railroad sta-
 tion, causing the death of twenty-three
 persons and the injury of many.

LEAVE DIAMOND.

**Dallas Players Object to Umpire's De-
 cisions and Forfeit Game.**

Waco, July 28.—Waco won from Dal-
 las Thursday in a game marked for the
 number of disputes Umpire Sheehan
 had with the latter on account of close
 decisions rendered against them, the
 team finally leaving the field at the end
 of the seventh inning, thus forfeiting
 the game to Waco, 9 to 0. The score at
 that time stood: Waco, 1; Dallas, 0.
 Temple won two games Thursday
 from Fort Worth. Scores: Temple, 8;
 Fort Worth, 6; Temple, 15; Fort
